January 30, 2016

Dear Hiring Manager:

I am a current junior at Tufts University studying Engineering Psychology and Computer Science. I am interested in applying for the position of Front End Web Development Intern at WalkerSands Digital for the summer of 2016. I found out about this position through Tufts University's job search portal.

I can bring several qualities to this position that other candidates may not have. As a double major in Engineering Psychology and Computer Science, I am both technically and creatively oriented. As a result, I make web tools and experiences that are intuitive, enjoyable, and effective. The design of my personal website, located at [pallpointben.github.io](http://pallpointben.github.io), showcases my ability to create superior web interfaces. For more information about my experience, skills, and coursework, please refer to my attached resume.

Thank you for considering me for this position. I am excited about the opportunity to work at WalkerSands. Please feel free to reach out to me at [pallpointben@gmail.com](mailto:pallpointben@gmail.com) if you have any questions or would like to schedule an interview. I look forward to hearing from you.

Regards,

A handwritten signature in black ink that reads "Ben Pall". The script is cursive and fluid, with the first name "Ben" and last name "Pall" clearly distinguishable.
